## VIGNOBLE MINGOT

**The MINGOT Family:** 3 generations of wine growers

Following his grandfather Raymond and his father Michel, Julien is now leading the family winery. Julien stands for the new generation of the family business and brings a cross view from the winemaking, highly focused on quality, to the sales with a customer service approach.

### **The vineyard**

The vineyard is located in the Savignac de l'Isle commune, close to Libourne, on what is historically called "the Bordeaux right bank". Situated at the highest point of the Isle valley, the plots benefit from a perfect sun exposure and an exceptional drainage thanks to the natural slope. 20 hectares of vines stretches out around the Château and permits to produce high quality red, white and rosé wines.

2 hectares of Lalande de Pomerol DOC have been added to the family portfolio and will be available in 2015.

### **Terroir, Soils and varieties**

With a clayey chalky soil, the red wines are blended with 3 different varieties:

The predominant one is the Merlot which finds its best expression on this terroir and gives our wine elegant roundness. The Cabernet franc brings fine aromatic complexity with slightly spiciness. The Cabernet Sauvignon expresses its best situated on a sunny hill and provide our wines with great balance and complexity in ageing.

Merlot: 16 ha

Cabernet Sauvignon: 0.5 ha

Cabernet Franc: 3 ha

Sauvignon Gris: 0,5 ha

## Harvest and Wine making process

The harvest which is the culminating point of a whole year's work requires a lot of attention. Julien is walking around the vineyard all day long to taste and judge the grape maturity.

On the cellar, alcoholic and malolactic fermentation happens in stainless tanks, then the wine growing takes place in concrete vats. All the grapes arriving on the cellar are selected on a sorting table.

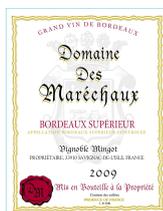

Maceration and temperature control are the rules process.

The breeding is made in French oak barrels for specific Cuvée Château MARÉCHAUX, during 12 months.

The winery possesses all the modern equipment to lead the vinification, the wine ageing and the conditioning in the best conditions:

- Warehouse stocking
- Bottling and labeling machine

## Our portfolio

### *Château MARÉCHAUX*

Mainly issued from Merlot, this cuvée includes 10 to 20% of Cabernet Sauvignon each year. Breeding in French oak barrels. (30% new)

### *Clos des BÉRGÈRES*

Called « les Bergères » due to the name plot, it is a Merlot and Cabernet Franc blend, aged in oak barrels.

### *Domaine des MARÉCHAUX Red*

The range Domaine des Maréchaux focuses on fruity wines. The red is 100% Merlot with tank growing one year long.

### *Domaine des MARÉCHAUX White*

100% Sauvignon Gris

Exclusive wine with very limited production. Very appreciated for its exotic and fresh citrus notes with a long finish.

### *Domaine des MARÉCHAUX Rosé*

50 % Merlot and 50% Cabernet Sauvignon blend in this bright color rosé, which enhances freshness of aromas and pure pleasure.
